BI-FOLDING DOORS

Bi-folds have of course become a style icon in modern architecture and have the huge draw of being able to 'remove' a full wall between outdoors and in, by sliding the door leaves to the side in a concertina effect.

SLIDING PATIO DOORS

The sliding patio door has made a huge comeback in recent years and is the perfect choice if you're searching for minimum frame and maximum glazing. You'll also be able to maintain all your internal space.
