HOME IMPROVEMENTS

EXTREME® SOLID CORE DOOR

Making an entrance

Make your house a Amber home...

You're in safe hands

Your door is more than just access to your house - it's a warm welcome home, a statement of character, and most importantly, a line of defence and protection for you and your family.

First impressions really count - so when it comes to choosing the right door for your home, you shouldn't need to compromise on style in pursuit of performance.

At Amber we understand the demands you place on your door, which is why we're proud to introduce the Extreme Solid Core Door collection - boasting a range of extreme features offered by no other door on the market.

Our super-secure doors are also available in a huge array of stylish colours and designs, so we'll always have the perfect match for you and your home. Our friendly team are always on-hand to help you choose the right door for your needs and will be happy to advise you whatever your requirements or your budget.

Pop into our luxury showroom for the perfect opportunity to 'try before you buy' and get a feel for what you like. And at Amber, we judge value on much more than just price, which is why our Extreme Solid Core Doors come with an exceptional guarantee.

A Personal Touch... The detail behind your door

At Amber we work in partnership with our suppliers to bring you exclusive products offered nowhere else on the market - you simply won't be able to find a like-for-like door to rival the Extreme.

Each and every product is manufactured with the upmost level of care and craftsmanship. We hand-select the very best range of locking systems, hardware and accessories to deliver a unique set of security and style benefits to complete your door.

We believe that every customer is unique, and we'll be delighted to work with you to design your perfect door. Let's get started...

Crafted with energy, **passion**
and integrity

EXTREME[®]

SOLID CORE DOOR

Unlike other composite doors, the Extreme Solid Core Door boasts sixteen layers of laminated timber in its unique 48mm solid core. This super-secure layering ensures your door is much stronger and more robust against the threat of break-ins.

Inspired by today's modern demands, our signature Extreme Solid Core door offers a mix of extreme features not found anywhere else. With our 'Auto-Engage' locking system as standard, your door will automatically engage upon closing, for super-strong compression, keeping your property free of drafts and protected from the threat of would-be intruders.

There's no compromise on style either, our fabulous range of classic and contemporary styles will really help you make your mark.

EXTREME **SECURITY**
 EXTREME **COMFORT**
 EXTREME **STYLE**
 EXTREME **WARRANTY**
 EXTREME **PEACE OF MIND**

How Extreme works...

Auto-engage lock as standard

- High-security multi-point lock which engages automatically upon closing.
- Super-strong compression the full length of your door which can help prevent intruders from gaining access to your home.*
- No need to lift the handle to engage your door, which means no more drafts or cold spots.

Snap secure locking cylinder

- TS007 3-star rated locking cylinder – the highest level of security available under British standards.
- Exclusive 'snap-secure' technology means the cylinder engages in 'lock-down' mode if the barrel is compromised.
- Comprised of a material x3 denser than iron, making the snap secure cylinder virtually impenetrable for would-be intruders.

Triple sealed

- x3 weather seals offer maximum protection against the outside elements, preventing damp, drafts and providing better insulation.

Sixteen layers of laminated timber

- Strong and more robust against the threat of attacks.
- Locks in heat, helping to keep your home warm and cosy inside.
- Multi-directional grain for a realistic timber appearance.

EXCEPTIONAL GUARANTEE

- Ultimate peace of mind that your door is built to last, and will perform for many years to come.
- Industry-leading warranty - you won't find a more comprehensive guarantee anywhere else.

*When combined with our Town Lock hardware. See P43 for details.

The Extreme Solid Core Versus Standard Foam-Filled Door

At Amber Home Improvements, we're often asked about the difference between a standard, foam-filled composite door, and the 16 layers of laminated timber that makes up the Extreme Solid Core Door. The answer is simple....

The Extreme Solid Core Door

The interlocked layers of laminated timber that make up the 48mm Extreme Solid Core Door ensures the grain is running in multiple directions. This means quite simply that the core has increased strength and rigidity. This is further protected by two robust coloured PVCu skins, which are less vulnerable to scratching than GRP skins.

The result? Robust. Solid. Secure. A door built to last, backed by our exceptional guarantee.

When it comes to choosing a new door for your home, **don't compromise.**

Standard Foam-Filled Door

A typical foam filled composite door is 44mm and has only a proportion of the door which is solid. The door is comprised of two skins made from Glass Reinforced Polyester (GRP) – commonly known as fibreglass. These skins are bonded into a solid frame which is filled with high density foam.

The foam-filled centre offers limited protection in the event of a break-in, when compared to a timber layered door.

Demand the
best security.

Extreme Security Protect your home

Nothing is more important than the safety and security of your home, your family and your belongings. You might be surprised to know that more than 35% of break-ins in the UK occur through the front door.

We firmly believe that we have a responsibility to install products that offer only the highest level of security, which is why we've hand-picked the best locks and hardware to give you maximum protection, including our exclusive Auto-Engage locking mechanism. You can learn more about these accessories on pages 40-46 of this brochure.

Ask About Secured by Design

We're proud to boast that our Extreme Solid Core Door has been tested to meet the requirements of the Police Flagship Initiative – Secured by Design – which combines the principles of 'designing out crime' with physical security.

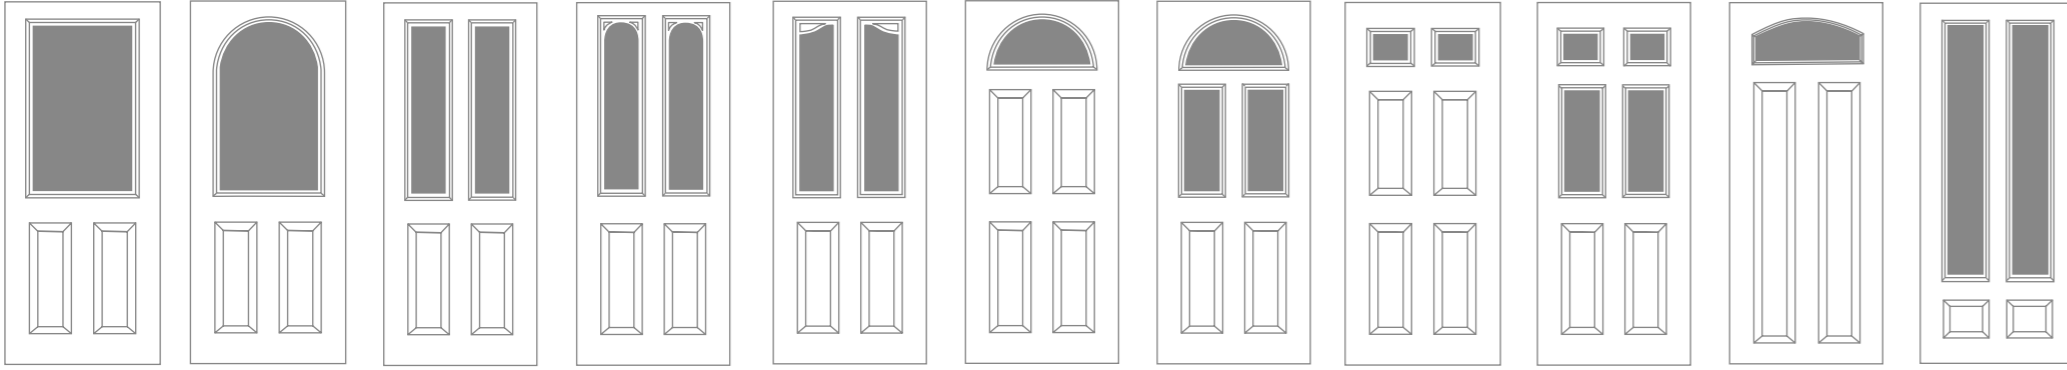

Speak to our team about selecting the right accessories and glass for your door that will ensure it achieves the Police-recognised symbol, for even greater peace of mind.

Door Styles ... At a glance

With 18 exclusive designs, 20 fabulous colour options and a beautiful range of hardware and accessories we have everything you need to compliment your home. Whether you're looking for a classically elegant design or something that exudes modern style we are sure to have the right design for you. To help you choose and get a feel for what you like, here's a snapshot of all our styles.

The Side Panels

Whatever style you choose, complete your look with a side panel perfectly colour matched to your door and glass design.

More colours and glass designs available.

*Backing glass cannot be chosen.

The Backing Glass Options

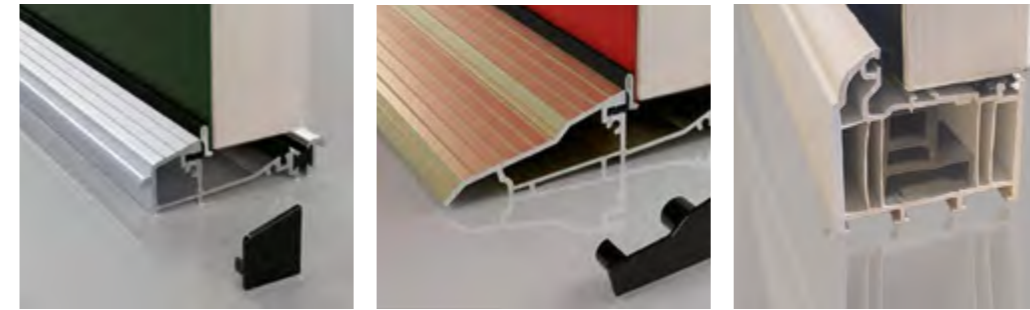

Selected glass designs give you the choice of backing glass, also available on its own or simply opt for clear glass in your door. Select your ideal level of privacy to suit your needs.

The Threshold Options

Think of your threshold as 'draft-proofing' for your door, offering protection against the outside elements including drafts & cold spots, and preventing any rainwater from seeping through.

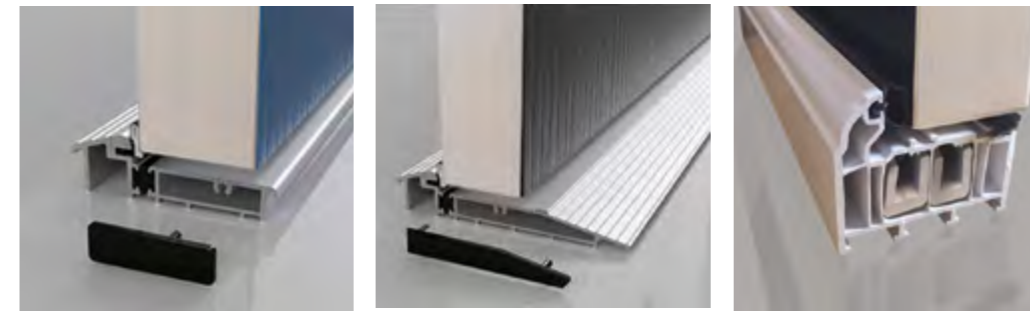

Choose from our standard PVCU range, or for lower thresholds particularly suited for wheelchair or pushchair access, opt for our Stormguard Range.

Stormguard AM370
Available in Gold or Silver
(Open inwards doors)

Stormguard AM3
Available in Gold or Silver
(Open inwards doors)

Our Standard PVCU
threshold
Available in White.

Stormguard AM570
Available in Gold or Silver
(Open outwards doors)

Stormguard AM5
Available in Gold or Silver
(Open outwards doors)

Low PVCU threshold
Available in White.

The Hinges

Extreme Hinge

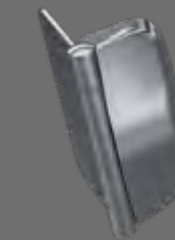

Available in the below colours:

Our Extreme hinge offers maximum security, having been tested to meet the demands of the Police-recognised Secured by Design (SBD) standard*. It's unique design prevents intruders from being able to remove the hinges from your door, and ultimately from removing the door to gain access to your home.

*Inward or outward opening available, but inward opening must be chosen to achieve SBD standard.

Traditional Hinge

Available in the below colours:

Our traditional hinge is super-strong for everyday use and can be used for inward opening doors only.

The Classic Hardware

For practical, everyday use our classic hardware range features a selection of sophisticated handles in a range of colours to suit your home. Complete the look with matching letterplate and urn-style door knocker for the perfect finish.

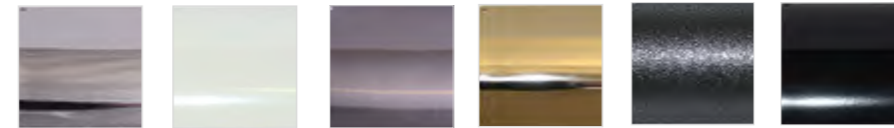

Letterplate

Lever/Lever

The Classic Hardware is available in the below colours:

Bright Chrome White Graphite Bright Gold Antique Black Black

Lever/Pad

Numarals

Door Knocker Available with or without viewing hole.

The Town Lock Hardware

For added security and a stylish edge, opt for our brushed silver Town Lock hardware range. Incorporating a bow or bar handle for a touch of modern luxury, or our cottage-style cylinder pull for a more traditional feel, both options will lock automatically upon closing, so your door will be fully protected from the threat of would-be intruders.

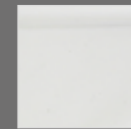

Handle

Offset Bar Handle Provided with some door styles due to functionality.

Bar handle Choice of lengths available.

Available in Brushed Silver

Internal Door Knob

Standard escutcheon

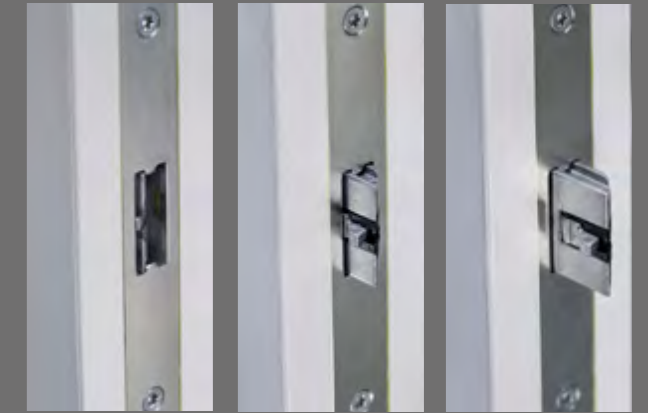

Cylinder pull Available one sided or back to back

The Auto-Engage Lock as standard

We don't cut corners when it comes to security. With our Auto-Engage Lock as standard, your door hooks will engage automatically upon closing. No need to lift the handle to engage, the unbeatable compression achieved by multiple locking points the full length of your door protects from drafts and cold spots. And, when combined with our Town Lock hardware range, your door is fully locked from the outside at all times, preventing intruders from gaining access.

*Door only automatically locked from the outside when matched with Town Lock hardware.

The Snap Secure Locking Cylinder

For ultimate peace of mind, we're proud to deliver as standard our TS007 3-star rated locking cylinder – the highest level of security available under British standards. With its exclusive 'Snap-Secure' technology, the cylinder engages in 'lock-down' mode if the barrel is compromised. Comprised of a material x3 denser than iron, the Snap-Secure cylinder is virtually impenetrable for would-be intruders, being pick, drill and bump resistant.

Everyone agrees

Don't just take our word for it! The Snap-Secure cylinder is also one of few locks to survive vigorous tests designed with the Master Locksmith Association. It has also been tested to meet the demands of the Police-recognised Secured by Design standard.

Cylinder Options

Choose from a thumb-turn internally, or a keyturn at both ends. You also have the option of a 'keyed-alike' cylinder, which allows you to use the same key for multiple entranceways (e.g. front and back doors). Please ask for further details.

the Extreme Warranty

Sit back. **Relax.**

Our comprehensive warranty will give you ultimate peace of mind that your door will deliver excellent performance and security for years to come.

We work very closely with our manufacturer to hand-select the very best materials and components to ensure their inherent durability, so you can relax in the knowledge your home will be comfortable and secure, period.

the Seamless Service

Our Guarantee offers you complete value for money and reassurance your products will last for many years. We're able to offer this comprehensive guarantee on a wide range of windows, doors, orangeries and conservatories because we use only the best materials and components which have been selected for their inherent durability, and which are proven to withstand the test of time.

See for Yourself...

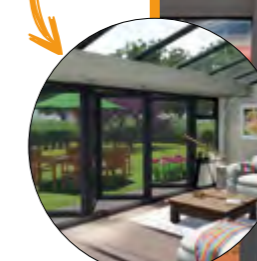

The best way to explore the benefits of our massive product range is to visit our indoor showroom. We're situated in Norwich and are open 7 days a week. You'll find a great range of beautifully furnished conservatories and orangeries – plus a comprehensive display of double glazing windows and replacement doors, giving you the chance to examine the quality of the products before placing an order. There's no better place to feed your imagination and visualise your dream home.

Your installation, previewed!

At Amber, we've invested in amazing state-of-the-art 3D modelling software, so we're able to bring your home extension or installation project to life at the design stage, helping you see how it will look once it's part of your dream home.

Everyone is welcome to come in and browse around our showroom area where our friendly sales team will be pleased to help with any queries you may have over a cup of coffee.

Be inspired...
without obligation

WHAT TO DO NEXT...

Now you've come to the end of this brochure, why not visit our new state of the art indoor Norwich Showroom, it's almost 5000ft² and is packed with exciting conservatories, orangeries, windows, doors and more!

We've installed, decorated and furnished our conservatories, orangeries and garden rooms so there are room settings where you can sit and imagine the lifestyle space and luxury we will add to your home. You can view roof systems including lanterns, glass & solid roofs and lots more.
